Sep 2020 – Present

Creative Director · Scottsdale, AZ · Hybrid

- **Creative Direction:** Lead creative end-to-end across commercials, social, live events, podcasts, photography, email, web, and print — from brand voice and campaign concepts through art direction and final QA.
- **Day-to-Day Ownership:** Run the ongoing creative workload for brands and partners: briefs, asset pipelines, revisions, approvals, and delivery across retainers, launches, and always-on content.
- **Content Systems:** Build and operate full-funnel content systems spanning strategy, production calendars, publishing, paid support, performance packaging, and channel-specific creative.
- **Social & Campaign Creative:** Concept and produce social-first and campaign creative across Meta, YouTube, TikTok, and email — including hooks, cutdowns, thumbnails, and channel-native packaging.
- **Production Direction:** Direct lean-to-multi-camera crews across commercial, hospitality, sports, and entertainment — including live events, podcasts, trade shows, and same-day social turnarounds.
- **Hands-On Craft:** Stay in the work: shoot, light, direct, and edit when needed (Canon / RED / Lumix / Sony), bridging creative leadership with on-set and post execution.
- **Brand Systems:** Partner on visual identity, storytelling frameworks, and brand consistency across campaigns, platforms, and deliverables.
- **Digital Builds:** Design and ship websites, landing pages, and campaign experiences in Webflow, WordPress, and Squarespace tied to content and growth goals.
- **Client Partnership:** Manage creative retainers and client relationships — translate business goals into scopes, timelines, budgets, and production plans.
- **Team Leadership:** Lead freelancers, production crews, and cross-functional partners from kickoff through delivery under real deadlines and shifting priorities.
- **Impact:** Drive multi-platform creative that has generated millions of views while contributing to executive operations alongside creative leadership.
